

ThermoGuard AI

AI-Based Wildfire Risk Prediction System

Predicted Risk: Medium

Prediction Confidence: 100.00%

Input Parameters

Parameter	Value
Latitude	20.04
Longitude	74.06
Brightness	330.6
Scan	1.1
Track	1.1
Acquisition Time	1200
Brightness T31	310.0
FRP	3.0
Confidence	n
Day/Night	D
Fire Type	0
Satellite Version	2.0NRT
Observation Date	2026-09-06
Observation Time	19:48:00

Risk Probabilities

Risk Level	Probability
High	0.00%
Low	0.00%
Medium	100.00%

Model Information

Algorithm: XGBoost Classifier
Features: 28
Test Accuracy: 99.92%
FRP: Included

Important Note: The dataset risk labels have a direct relationship with FRP. Therefore, the 99.92% accuracy should not be interpreted as independent leakage-free prediction accuracy.
